

# Safety Notes at Jo Jingles classes

**Still providing lots of musical fun!**

## Face Coverings

We'd encourage you to still wear a mask to mat in class. If you'd like to keep your mask on at all times then please do so. Our Class Presenters will be keeping facemasks or face visors on as required or preferred.

## Reduced Class Size

Depending on venue space we may now be able to offer more spaces at classes but still won't be running at maximum group size at this time.

## Safe spaces

We'll still be encouraging you to keep a safe distance with at least 1m apart at classes. Seating spots will be clearly set-out and for Baby Jingles classes, please do bring your own soft mat if preferred.

## Keeping those germs away!

Do still keep washing your hands before class and we'll continue to provide hand sanitiser & wipes at classes too.

## Clean single use instruments!

All instruments and equipment used in class will be exclusively used for a single session and then re-cleaned before next use.

## Toys & Props

We'll still be using a minimum selection of props & toys at classes unless they can be cleaned between sessions.

## Health First!

- ALL Jo Jingles Class presenters have undertaken Infection Control Training and/or Covid-19 Awareness course and will continue to do personal Lateral Flow Tests at least twice per week.
- Anybody with Covid symptoms should not attend class. Even if you are now double vaccinated – if anybody in your family becomes unwell with Covid we would ask that you get a PCR test and not attend classes.
- If classes are cancelled due to Covid we will offer online sessions or make up classes at a later date.
- Any further queries please do speak to your Jo Jingles Class teacher!

**Many thanks for your continued support & co-operation!**
